

385.2001 through 385.205. All comments must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). These documents must be filed by providing the original and eight copies to: Secretary, Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426. An additional copy must be sent to: Director, Division of Project Review, Office of Hydropower Licensing, Federal Energy Regulatory Commission, Room 5K-01, at the above address. Each filing must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

m. Available Locations of Applications: A copy of the application is available for inspection and reproduction at the Commission's Public Reference and Files Maintenance Branch, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 208-1371. A copy is also available for inspection and reproduction at the applicant's office (see item (h) above).

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5512-3; OMB# 2060-0054; EPA# 1131.05]

Agency Information Collection Activities Under OMB Review; Standards of Performance for New Stationary Sources Glass Manufacturing Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the Information Collection Request (ICR) for Standards of Performance for New Stationary Sources—Glass Manufacturing Plants—NSPS Subpart CC) described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 1, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1131.05.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Glass Manufacturing Plants (OMB Control No. 2060-0054; EPA ICR No. 1131.05). This is a request for extension of a currently approved collection.

Abstract: The Administrator has judged that PM emissions from glass manufacturing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of glass manufacturing plants must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test.

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2212.4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The capital costs associated with this rule result from purchasing particulate matter control devices and operation and maintenance of particulate matter

control devices. The estimated cost of a particulate matter control device is \$400,000. The estimated annual costs for operation and maintenance of pollution control equipment is \$175,000. This figure was calculated using estimates provided by a glass manufacturing industry consultant who stated that operation and maintenance of pollution control equipment costs approximately \$2.00 per ton of glass manufactured with the average container glass facility manufacturing 250 tons per day for 350 days per year.

Respondents/Affected Entities: 30.

Estimated Number of Respondents: 30.

Frequency of Response: 2.

Estimated Number of Responses: 60.

Estimated Total Annual Hour Burden: 2,588.9 hours.

Estimated Total Annualized Cost

Burden: \$78,834.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1131.05 and OMB Control No. 2060-0054 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460 and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: May 22, 1996.

Joseph Retzer,

Director, Regulatory Information Division.
